

The Local Coach Development Programme (LCDP)

The role of the coach within our complex sport remains crucial at all levels no matter the age or ability level of the athlete that you coach. Your contribution to the development of athletics is invaluable, whether you are inspiring youngsters to take part and, or coaching talented performers in their pursuit of excellence.

England Athletics recognises these contributions and provides a well-structured, resourced and effective coaching system to help you grow. As a Coaching Assistant, Level 2 or less experienced Level 3 coach you have the chance to take part in a local support programme to help your own personal development. The programme is totally flexible and defined around your own needs. It has been provided free of charge by England Athletics to help grow and mentor coaches on a local level to help create the next generation of sporting champions.

What will you get out of the programme?

To apply to the programme simply contact your local England Athletics support staff and they will send you an application form
